Passionate Full Stack Web Developer with a focus on the MERN stack, solid knowledge of data structures and algorithms, and aspirational Frontend Web Developer who is curious about new opportunities in challenging environments.

PROJECTS

LIVE ⌕ Getharvest.com clone

GETHARVEST is Time tracking and management website with powerful easy reporting and streamlined online invoicing.
This project is built by a team of five developers and executed in five days.

Features :

- Sign-up/Sign-in and Google Authentication with Firebase.
- Home, WhyHarvest?, Features, Customers, Pricing, and Services Pages.
- Time tracking, Project-management, and Invoice creating functionality.
- Downloadable Invoice and Project list.

Tech Stack : React.js | Redux | Express | Mongo DB | npm | Node-js | Chakra UI | Firebase-auth| HTML | CSS | Heroku | Netlify

Areas of Responsibilities :

- Created the user interface which is fully responsive and Mobile Friendly.
- Created Home, Whyharvest? and Pricing pages.

LIVE ⌕ Zee5.com clone – OTT Platform

ZEE5 is an Indian subscription video-on-demand and over-the-top platform with tons of tv shows and blockbuster movies.
This project is individually built by me and was completed in just five days.

Features :

- Sign-up/Sign-in Page.
- Home page, News Page, Movies Page, and Product selection.
- Play, Pause, Backward and Forward functionality.

Tech Stack : React.js | JavaScript | npm | Json-server | Chakra UI | Sweet Alert | HTML | CSS | Render | Vercel

Areas of Responsibilities :

- Created the Authentication with Context API and deployed it on Heroku.
- Build JSON server for the backend and used chakra -Ui for creating
